Pavenham Neighbourhood Plan Questionnaire

Survey conducted November- December 2015

This Survey was organised by the Pavenham Neighbourhood Plan Steering Group to provide data to help shape the village's Neighbourhood Plan. It has been an opportunity for villagers to have their say on a range of issues affecting development in Pavenham.

The Questionnaire was issued to all adults in Pavenham as indicated by the latest register of electors and was delivered by local Neighbourhood Plan representatives.

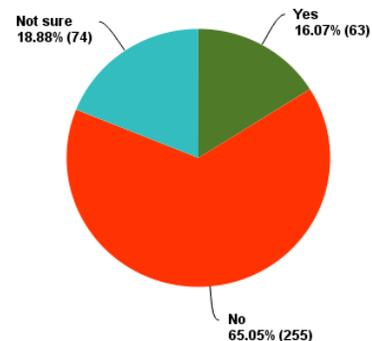

In all **575** questionnaires were issued and a total of **395** responses were received (over 100 of these responses were made online). This represents a response rate for the survey of **68.69%** which is well above the national average response for such a survey.

The Neighbourhood Plan Steering Group thanks all those who completed the survey and also those who helped in the organisation, design and distribution of this important survey.

This document summarises the results of the Survey mostly in graphical form. In addition, many respondents gave further comments which will all be analysed carefully as input to the Plan.

Q13: Is it important that the sites marked on Map 2 above be designated as Local Green Spaces?

NB. The Parish Council has proposed that a number of areas of land within Pavenham should be designated as "Local Green Spaces". If approved by the Borough Council, those areas will receive a high degree of protection against development. To qualify as a Local Green Space the land must be reasonably close to the community it serves, should have special local significance e.g. for its recreational value, its beauty or be rich in wildlife and must be local in character – i.e. not an extensive tract of land.
